## **Developing a Plan of Study**

To facilitate course planning and scheduling, students should be aware that not all courses are offered every semester. Some courses require pre-requisites and preparatory courses to be successfully completed or co-requisites be taken simultaneously.

## **Program Specific Information**

Students should know the following information:

- 1.) This is a fall start program. This program is generally an all-day program with core classes being offered at particular times only.
- 2.) This program builds from one semester to the next. Many of the required courses are sequential in order and failure to pass one semester can impact the next.
- 3.) Students can earn the Certificate of Applied Science (CAS) degrees and continue on to the Associate of Applied Science (AAS) degree option.
- 4.) This program requires you to work outside. Be prepared for the elements.
