AHMS	220	Medical Office Procedures	3			
AHMS	250	Advanced Medical Coding	3			
AHMS	299	Capstone	1			
BIOH	104	Basic Human Biology	3			

TOTAL MINIMUM CREDITS REQUIRED   31

A grade of "C" or higher is mandatory in all courses.

∇ **Program is available online**

Transcript evaluation (if applicable completed) by: _____on __/___/_____

Developing a Plan of Study
To facilitate course planning and scheduling, students should be aware that not all courses are offered every semester. Some courses require pre-requisites and preparatory courses to be successfully completed or co-requisites be taken simultaneously.

Program Specific Information
Students should know the following information:
- This program can be completed fully online or fully on campus, or also in a combination of online and on campus classes. Please verify the rotation of courses to best develop a plan that works for you.
- For students that don't have a background in medical terminology or basic human biology, AHMS 144 Medical Terminology and BIOH 104 Basic Human Biology should be taken before or with AHMS 160 and AHMS 162 for best readiness.
- Upon completion of the program, students will be able to sit for the American Academy of Professional Coders (AAPC) or American Health Information Management Association (AHIMA) coding exams.
- Students have opportunity to further their education and thus career opportunities after earning the Medical Coding and Insurance Billing certificate. For example, many of the credits in the Medical Coding and Insurance Billing certificate are applicable to the AAS Medical Administrative Assistant degree. Students that earn an AAS degree, can bridge their credits to a Bachelor of Applied Science degree through MSUB.
