Important notes for those planning to apply to MSU-Bozeman's BSN Program:

Montana State University-Billings offers approved prerequisite courses to pre-nursing students through an arrangement with MSU-Bozeman's College of Nursing. MSU-Billings advisors are available to students in the Pre-Nursing Program. However, students are solely responsible for meeting requirements and determining the classes that they will need for graduation and application to the MSU-Bozeman BSN Program. Pre-nursing students should contact the MSU-Bozeman academic advisors for questions specific to the BSN Program and the application process.

MSU's Traditional BSN Program is divided into lower division and upper division coursework. Upon successful completion of the required lower division coursework, nursing students begin their upper division nursing courses and clinicals. These nursing courses can be completed at one of five BSN placement sites: Bozeman, Billings, Great Falls, Missoula or Kalispell.

Acceptance into MSU's Traditional BSN Program is competitive and based on a student's holistic application score. Courses included in the prerequisite GPA are *italicized* and **bolded** above. Application for a BSN placement requires a minimum prerequisite GPA of 3.0. However, since placement is competitive, students should strive for the best grades possible.

At least 3 of the 5 required natural science courses, including BIOH 301/302, must be underway or completed with a grade of C- or better at the time of application. The remaining courses must be successfully completed before a BSN placement begins. These courses are: BIOH 301/302, BIOH 311/312, BIOM 250/251, CHMY 121/122, and CHMY 123.

Repeat Rule: All prerequisite courses (*italicized* and **bolded**) must be completed with a grade of C- or better. Grades below C- are not acceptable, and W's count as attempts. Applicants are limited to two prerequisite attempts. This means that a student may repeat only two prerequisite courses one time to earn a grade of C- or better, *regardless of the grade earned*. An applicant can appeal this rule if the student repeated a prerequisite course more than once or repeated more than two prerequisite courses.

Professional Health Care Provider CPR Certification: Verification of American Heart Association Basic Life Support CPR for infants, children, adults, and AED is required for application to MSU's Traditional BSN Program. Only the American Heart Association certification is approved. Online CPR courses are not acceptable.

Student Urine Drug Testing: MSU's College of Nursing requires an annual drug test for all undergraduate nursing students. The drug test must be completed at the time of application through an approved lab and annually thereafter.

Background Check Information: A background check is also required for application to MSU's Traditional BSN Program.

MSU College of Nursing's Application for Placement: Applications will be available through the College of Nursing's website at <http://www.montana.edu/nursing/undergraduate/placement.html>. Clinical compliance tracking is processed through Complio MSU Compliance. The cost is \$63.95, due at the time of application.
