2. Get a part-time job in the field. Check out CareerLink by scanning the QR Code for the latest job openings!

BUSINESS ADMINISTRATION MANAGEMENT

Overview of the Management program:

Management skills apply to every organization and in every business discipline. The management major is designed to give students the skills they need to lead companies in all phases of development, from startup to maturity, and through challenging situations. Students develop competence in human resource management, leadership, business strategy, quantitative and statistical decision making, production/operations management, supply chain management, sustainability issues, and international business.

What makes your program unique?

Students are given opportunities to practice leadership, motivation, and team building in their courses. Students get hands-on experience developing business plans for real business clients and interacting with community businesses on classroom projects. Paid internship opportunities exist to provide practical and networking experiences important to obtaining employment.

The business programs at MSUB are accredited by AACSB, the premier accrediting body ensuring quality in academic business programs. The standards required by AACSB accreditation put MSUB's College of Business and its programs in the top 5% of business schools in the world.

What students like most about the Management program:

Courses are taught by professors with work experience from running their own businesses to managing in large international organizations.

Students like the flexibility of choosing to take courses on campus, remotely through videoconferencing, or online. This flexibility allows students to complete their degree wherever they are.

The management degree prepares students for careers in not only business but nearly any field that requires excellent communication, organizational, and management abilities.

Studying management prepares students for careers in a variety of industries including manufacturing, healthcare, hospitality, wholesale and retail trade, service industries, banking, construction, transportation, finance, education, utilities, entertainment, and government.
