

What is an Employer Partner?

Employer Partners are a select group of employers who contribute to MSUB Career & Employment Services to enhance the recruiting support we provide. Partnerships are available at three levels. The chart illustrates the benefits provided to partners at each level. Employer Partnerships represent an investment in your future workforce, and in the quality and vitality of the community and the region's economy. We hope you will join us.

Because it makes good business sense.

The Employer Partnership Program, a unique opportunity managed by Career & Employment Services, is designed to increase your visibility at MSU Billings, enhance your recruiting efforts, and support important services that link students with employment and internship opportunities.

Businesses participating in the Employer Partnership Program benefit from:

- Stronger relationships with MSUB Career & Employment Services
- Increase campus visibility and recruiting advantage among students who pursue internships and part-time and full-time jobs and with alumni who seek career opportunities after graduation
- Multiple opportunities to market your organization on campus and online

Your support, as an Employer Partner, also enhances the ability of Career & Employment Services and MSU Billings to:

- Equip students to manage their careers
- Support internship opportunities for students
- Connect employers with a quality workforce

Review the Employer Partnership Program Benefits on the next page and choose the funding level at which you wish to participate.

To sign up for the Employer Partnership Program, contact Career & Employment Services at 406-657-2168 or careers@msubillings.edu.
