

Accreditation Status

Athletic Training Program College of Allied Health Professions

In March 2006, MSU Billings ATP was granted an initial five year full accreditation by the Commission on Accreditation of Athletic Training Education (CAATE) and in the August 2011 the Athletic Training Program was reaccredited through 2020-2021. Current accreditation status does not guarantee the program will receive continuing accreditation status through yearly reports so we must all continue the work to maintain accreditation.
