

## NURSING APPEAL POLICY CHANGE

Effective: October 1, 2021

Current policy states that courses can only be repeated twice regardless of when taken.

Withdrawals do not count as having taken a course.

New Appeal Policy –

General education courses taken within 15 years and science courses taken within 5 years will be counted for acceptance into the program.

When doing an appeal, any course taken over 5 years ago will not count when determining if a course can be repeated.

Withdrawals do not count as having taken a course.
