

## UNDERGRADUATE CURRICULUM COMMITTEE MINUTES

March 17, 2009

Hello UCC Members:

I recently discovered that a change to RAD 182 (see below) was lost on its way to me. This is part of the Radiology program credit changes (if you recall, they got BOR authorization for the program to have increased credits so students get adequate clinical/lab time).

**Item 38.f** RAD 182 Clinical Radiology III. Change credits from 7 to 8.

Please email me your vote—approve or not approve—by this Thursday, March 19 at 5:00 p.m.
