- Item 38.o** TRID 135 Basic Rigging and Metal Buildings. New course.

- Motion by Brian Gurney, seconded by Agnes Samples to **approve Items 38 through 38.o on first reading.**

Darryl Grove, Construction Technology-Carpentry program, stated that 2010-2011 will be the fourth year the program and some changes needed to be made. The ratio of credits to lab time is changing in many courses. A couple courses were also combined because there is not enough material for a stand-alone course. Item 38.a also adds the Certificate to the program as an exit point. No additional staffing will be needed because the Certificate is the first two semesters of the AAS program. Students will receive the Certificate and can choose to leave the program or continue and earn the AAS degree. The AAS program is going from a total of 71 credits to 72 (72 credits is the maximum allowed for an AAS by BOR policy). Mr. Grove noted that the program averages about 15-18 students coming in every year to start the program and about 12 continuing through the second year.

- Motion carried.

- Motion by Mark Jacobson, seconded by Brian Gurney to **waive second reading of Items 38 through 38.o.**

- Motion carried.

The meeting adjourned at 4:14 p.m.
